WHY DO WE NEED HARMONIZATION 1?

- Poorly maintained data in both systems in more than last 50 years
- Role of land register was pushed to margins
- Different ways of handling parcel information in registers

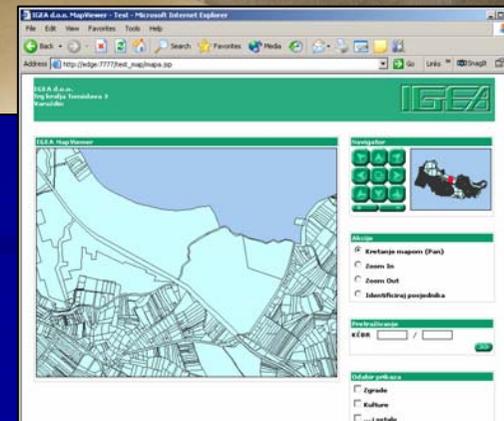

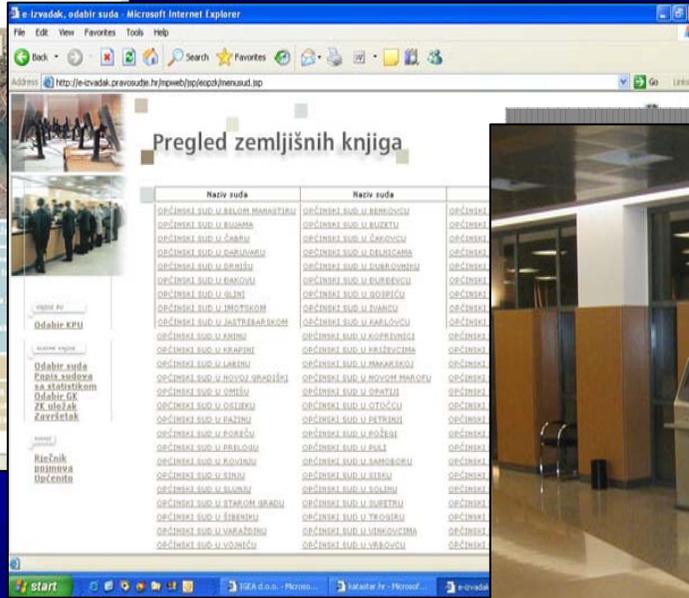

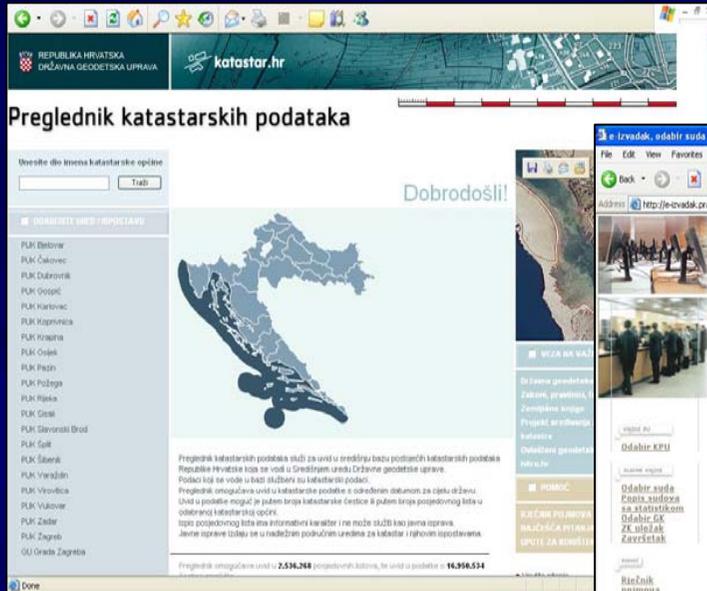

CONCEPTUAL FRAMEWORK

HARMONIZATION PHASES

- Preliminary phase
- Preparation of data for surveying company
- Planning and conducting a new cadastral survey
- Public display of the cadastral survey followed by establishing/renewal of a land book
- Forming an initial state of data in LDB
- Maintenance phase
