

STDM

FIG YSN UN-Habitat/Global Land Tool Network

Social Tenure Domain Model Trained Trainers Overview (2013 - 2017)

YS FROM **80** COUNTRIES HAVE BEEN TRAINED TO BE STDM TRAINERS

Timeline & Countries of Training of Trainers Events

Trained Trainers

UN-Habitat/GLTN & FIG YSN trained approximately **250 Young Surveyors**

From around **80 countries worldwide** covering every region

Social Tenure Domain Model

● Tools

has the tools, materials and the

● Knowledge, Capacity

to provide tenure security to the world

BUT

● not quick enough

still in 2017 it is estimated that just 25-30% of the world's population relationship to land is documented, recorded and recognised

● GAP

between developed and developing countries in regards to tenure security, available tools and base material and needs are extreme diverse

BUT

● STD

is there to address this gap

- to leave nobody behind

:: We would like the **YS** to set an example :: We would like to see the **YS** to carry on

:: We would like to see the **YS** involvement :: We need to think far into the **future**

The FIG Foundation

GLTN
GLOBAL LAND TOOL NETWORK

UN HABITAT
FOR A BETTER URBAN FUTURE

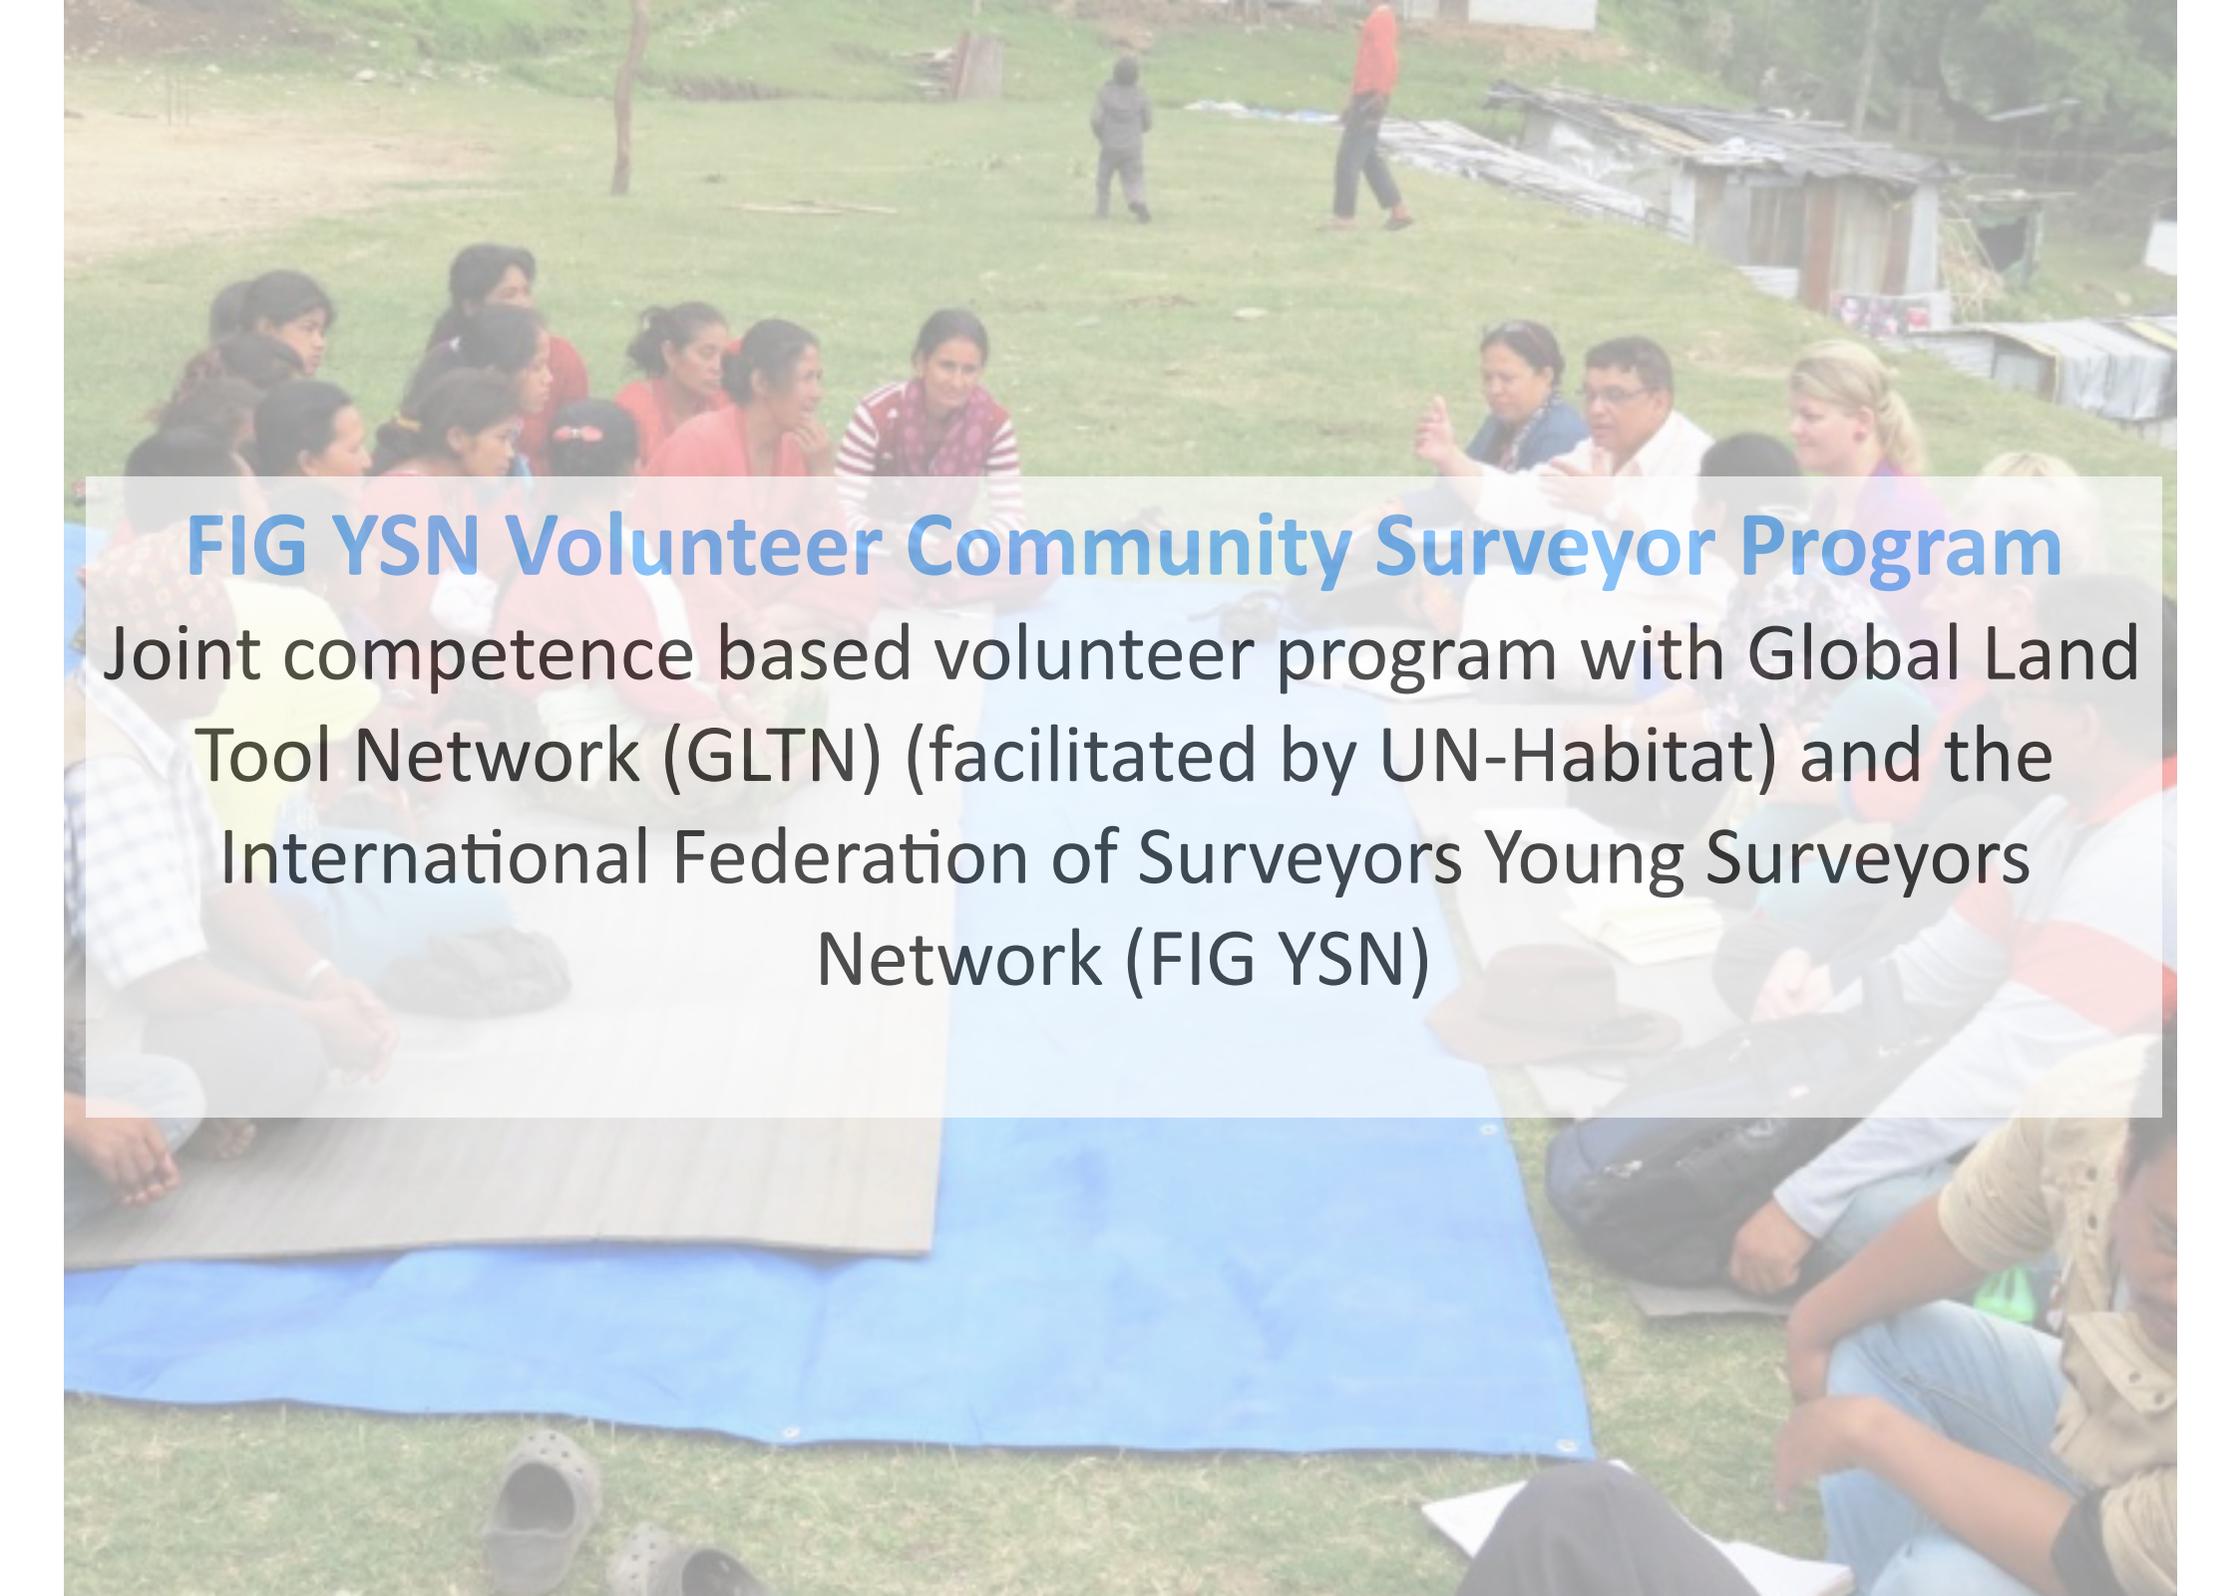

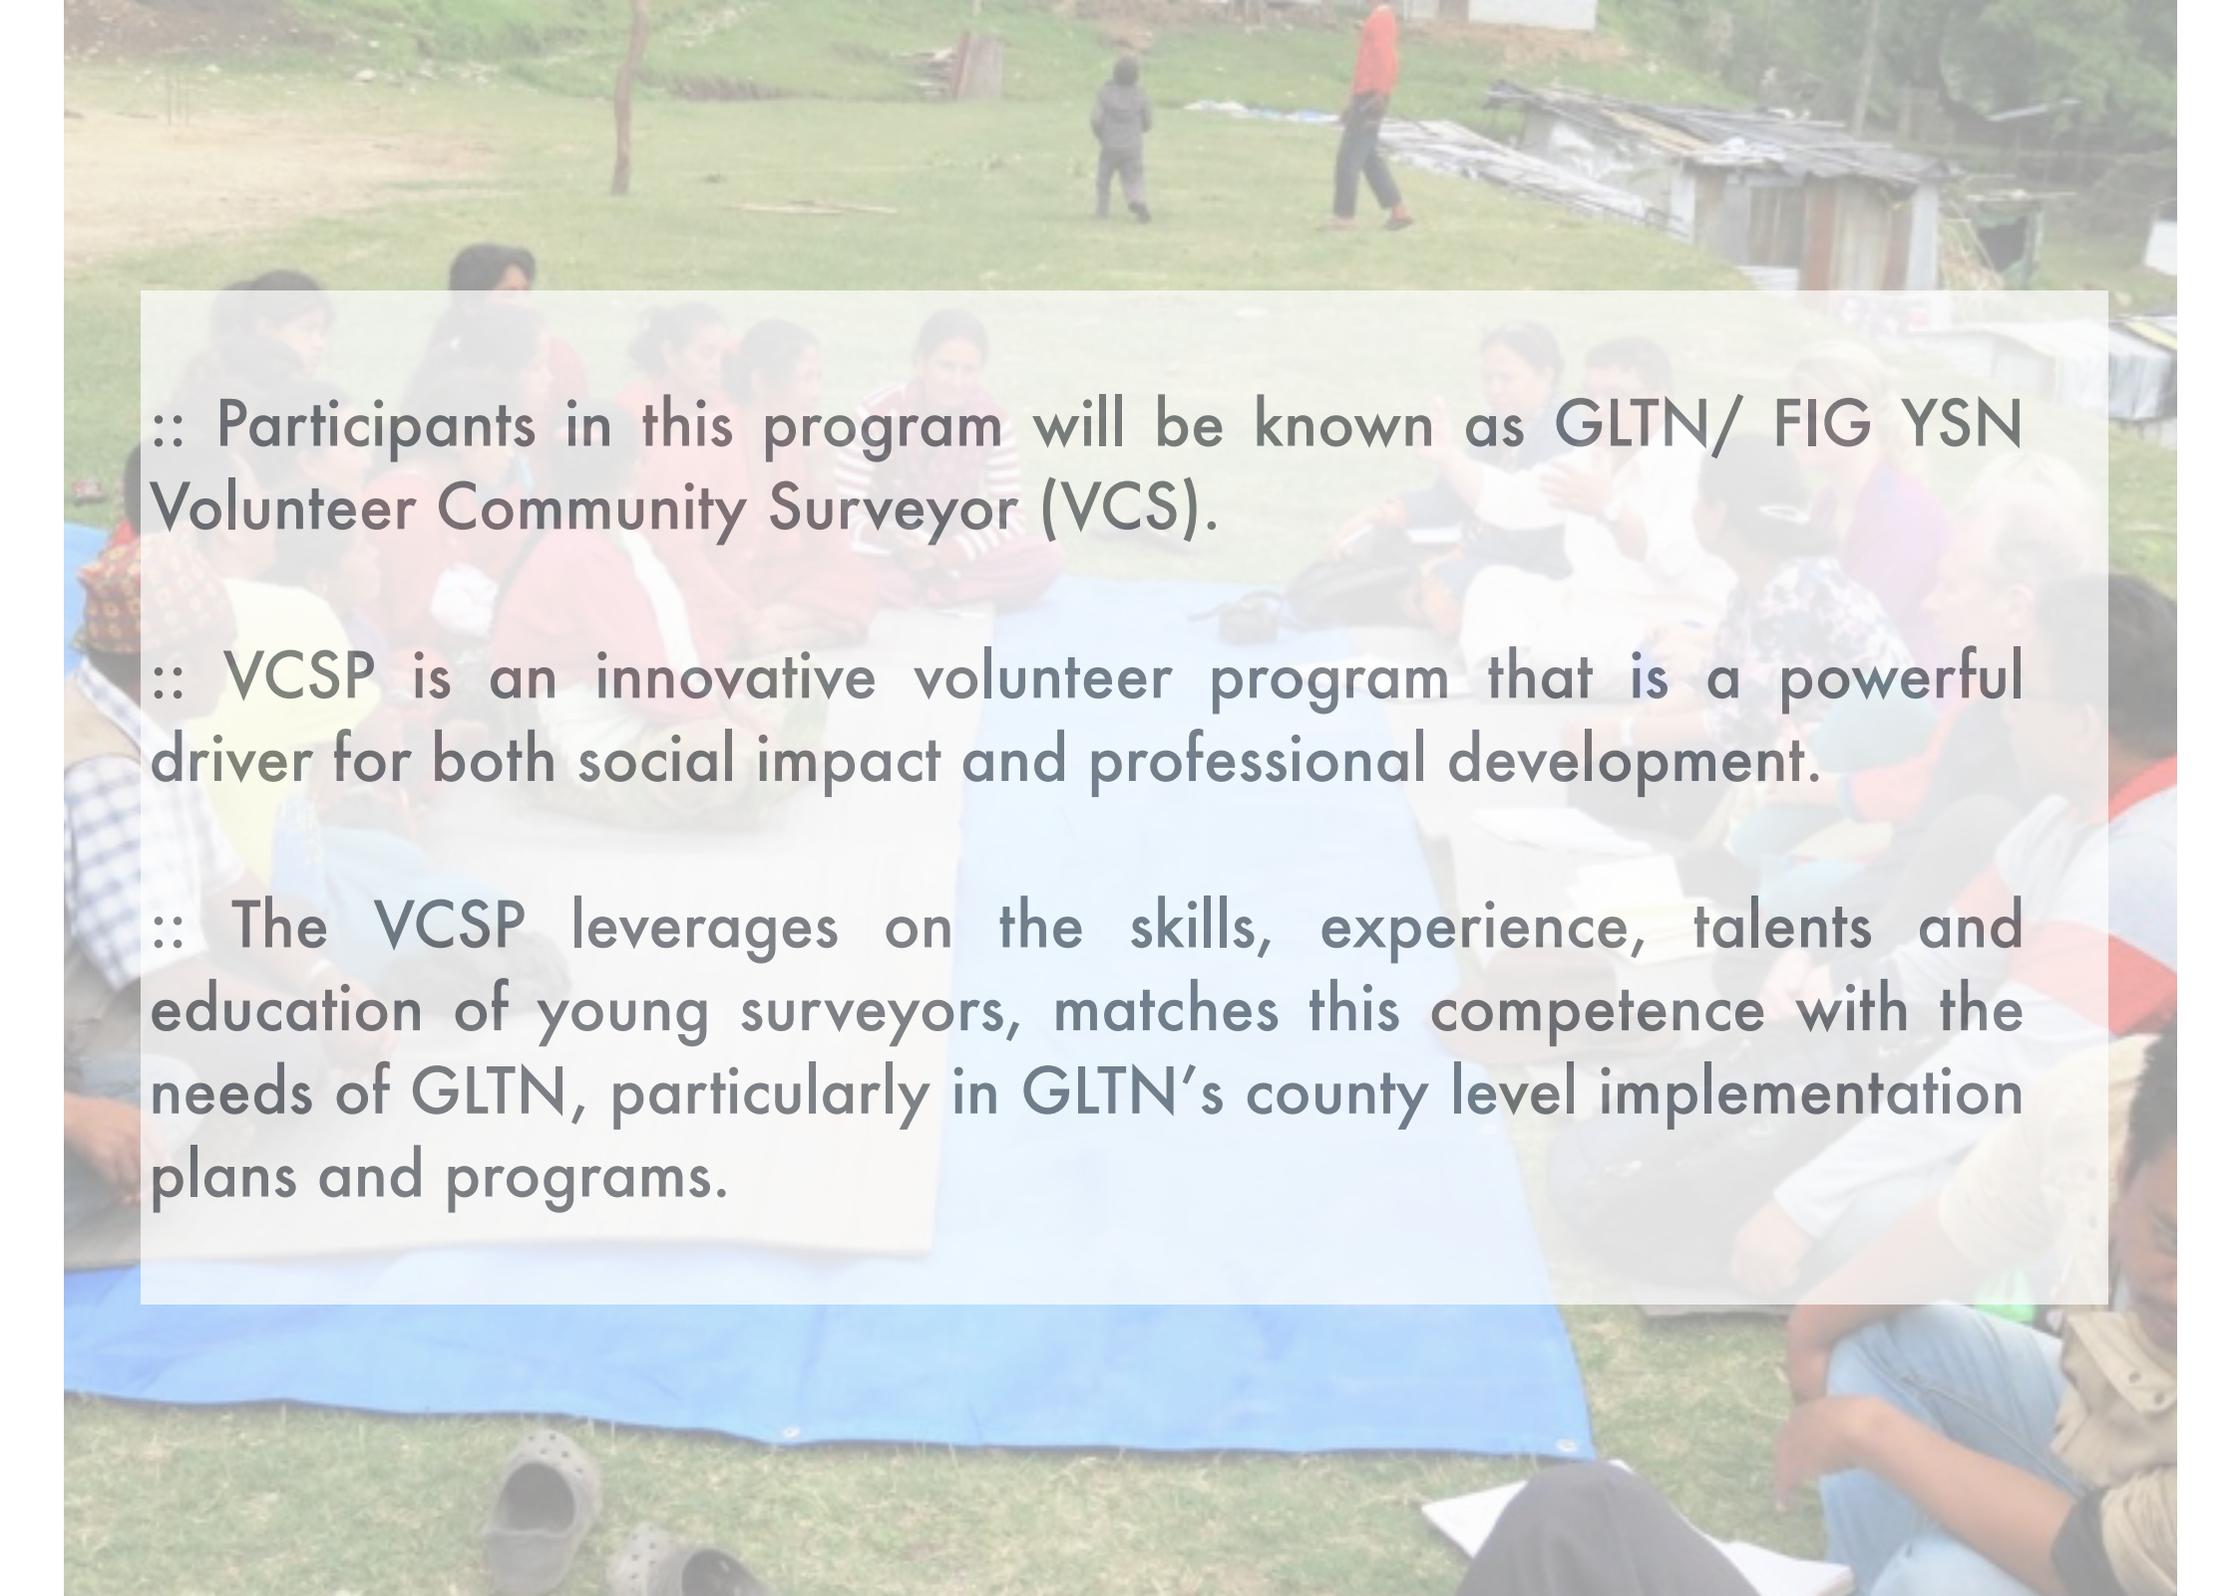

A group of approximately 15-20 people, including men and women of various ages, are sitting on a large blue tarp spread on a grassy field. They are arranged in a circle, engaged in a community meeting or training session. Some individuals are looking towards a central point, while others are looking at each other. In the background, there are simple, makeshift structures with corrugated metal roofs, suggesting a rural or informal settlement setting. A few people are standing in the distance on the grass. The overall atmosphere appears to be one of active participation and learning.

FIG YSN Volunteer Community Surveyor Program

Joint competence based volunteer program with Global Land Tool Network (GLTN) (facilitated by UN-Habitat) and the International Federation of Surveyors Young Surveyors Network (FIG YSN)

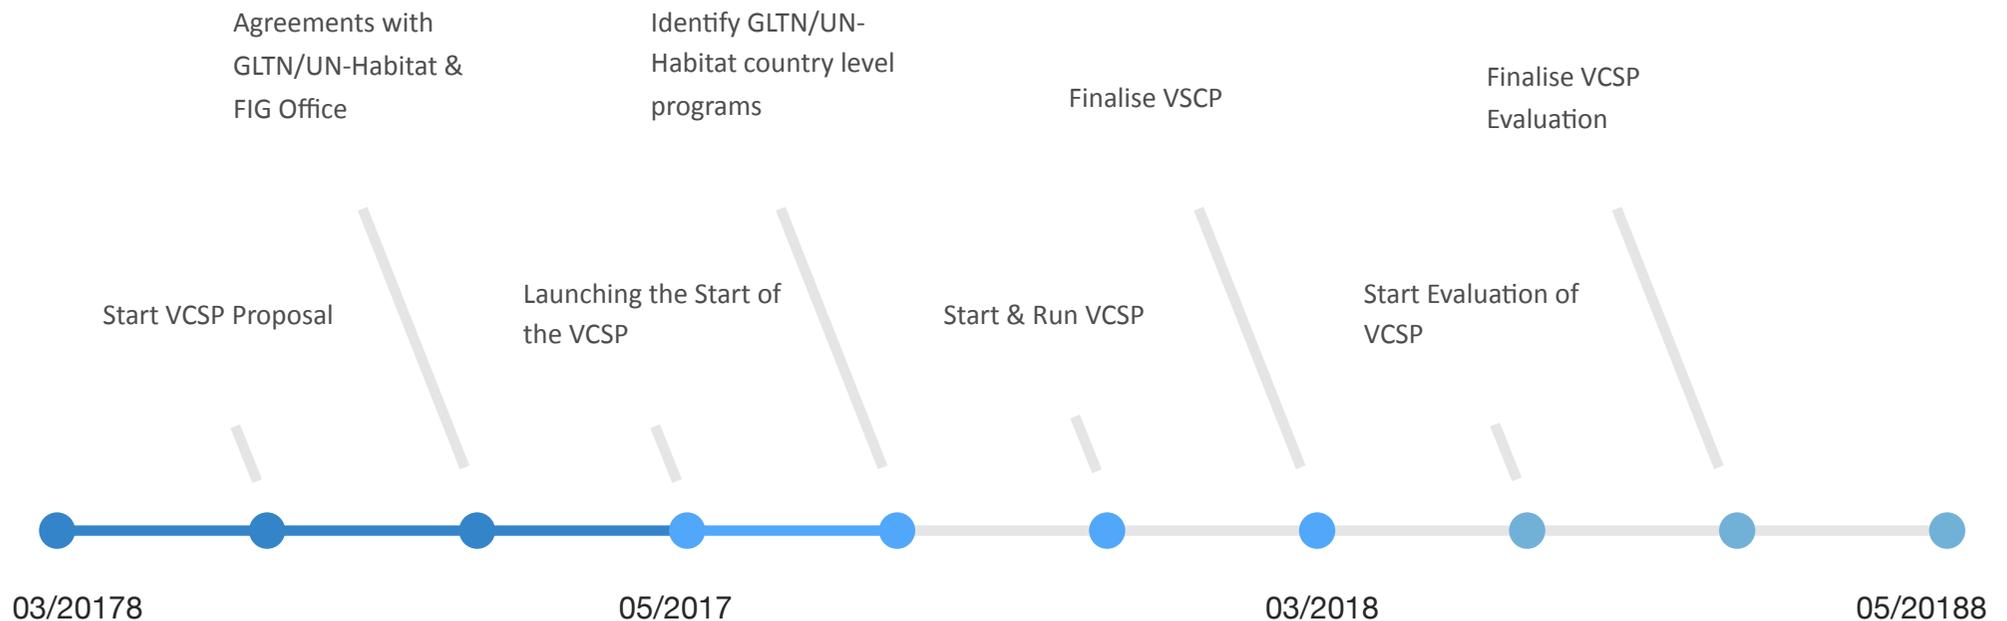

:: Participants in this program will be known as GLTN/ FIG YSN Volunteer Community Surveyor (VCS).

:: VCSP is an innovative volunteer program that is a powerful driver for both social impact and professional development.

:: The VCSP leverages on the skills, experience, talents and education of young surveyors, matches this competence with the needs of GLTN, particularly in GLTN's county level implementation plans and programs.

The Volunteer Community Surveyor Program is a pilot program

It is a small-scale, short-term pilot that helps GLTN/UN-Habitat and FIG YSN to learn how a large-scale program might work in practice.

Key Facts

Placement locations: Dependent on GLTN/UN-Habitat's country level project/program

Requirement: Young Surveyor – further definition based on Project

Length of program: Dependent on available opportunities and GLTN/UN-Habitat's country level project/program requirements (max. duration of 1 month; min. duration of 2 weeks)

Accommodation: will be provided by the recipient (or sponsoring) community (UN Infrastructure or national or regional government) or an allowance in lieu

Costs of local Living: will be provided by the recipient (or sponsoring) community (UN Infrastructure or national or regional government) or an allowance in lieu

Travel costs: Provided (or reimbursed) through GLTN/UN-Habitat Professional Cluster Budget

Medical cover: Organised through FIG Office and covered

Note: There is no salary
