

Innovating Global Geospatial Knowledge to Bridge the Digital Divide

Pengde Li (China, PR)

SUMMARY

In this presentation, I will talk about the Pact of the Future and Global Digital Compact related to digital revolution of global governance.

Geospatial data is essential to good governance. With the new development of AI, geospatial knowledge is becoming more and more important to give geospatial

service with high reliability. I would call for international cooperations to establish common geospatial knowledge foundation.
